HAPPENINGS IN STATE

SAN LUIS OBISPO GROWERS WILL PLANT NO MORE HORSE BEANS

SAN LUIS OBISPO, Oct. 18.—There'll be hard scratching in San Luis Obispo county for Mr. Aphis Rumicis during the next two years. Friend Rumucis, be it known, really is a bean aphis who destroys beans faster than Boston consumes them. The chief reason for the trouble ahead of this little bug is the fact that he will have nothing to eat. The bean growers of the county, at a recent meeting, resolved to plant no horse beans, which are held responsible for the presence of the aphis, during the next two years.

ALAMEDA, Oct. 18.—Police Judge J. R. Weinmann fined Robert Bruns $2.50 for riding a bicycle without a light. "Please, your honor, can't I serve time in jail in place of the fine?" Bruns asked the court. Sure. The court was willing. "What sort of a jail is it?" asked Bruns. The court directed an officer to demonstrate the jail. Three minutes later Bruns rolled the two-fifty across the judge's desk. "There's the money," grumbled Bruns. "Think I'll pay."

SAN FRANCISCO, Oct. 18.—Gasoline may win the war, but it will have to hustle if it beats the American horse to the job. Horses taken to Europe's battlefields for the allies already are counted in the hundreds of thousands, according to Capt. W. H. McKittrick, president of the San Francisco branch of the Red Star Animal Relief. Statistics recently compiled horses to a total value of $25,327,333 have been sent to Europe since the war started. The Red Star points out that the animal casualties are enormous. In eight hours' fighting recently the French lost 5000 horses.

SAN FRANCISCO, Oct. 18.—California's farmers should subscribe liberally to the second Liberty loan, in the opinion of Secretary of the Treasury McAdoo. Just before leaving for the South on his recent trip here, McAdoo issued the following statement and appeal to the farmers: "Now I should like to say a word about the farmer in this particular campaign. In the first campaign for the sale of Liberty bonds I expressly requested that the farmers should not be solicited because we were then trying to stimulat production, and I did not think it was just to ask the farmer to buy at that time. But now hat the crops have been harvested the farmer is receiving the surplus from very bounteous harvests, and there is nothing he can buy any better than these bonds. The son of the farmer is taking his part in this war. I found in little villages people who came out to the railroad stations, asking me to say a few words. I found that every one of these villages was contributing its quota and doing it in fine spirit. And so the sons of the farmers, like the sons of others, all were being brought together in this great army without distinction and going forth to serve their country. The farmer is as much interested in this great army of ours as any other class of people, and I think if these bonds sold to provide arms, ammunition and supplies for that army, are bought particularly to the attention of the farmer, he will respond and do his share."

COMMUNITY CONCERT

The program for the coming Saturday night community concert includes a duet by Mrs. J. E. Moode and Mrs. G. H. Jordan; a solo by little Warner Moode, 4½ years old; a solo by Mrs. G. D. Roach accompanied by Mrs. Roscoe Puffer. O. E. Von Oven will sing a solo and also give a talk on community singing.

The community singing will be in charge of Spencer Robinson and Miss Gertrude Champlain will preside at the piano.

A pleasant surprise is in store for all who come early—before 7:30. The regular program begins at 8 o'clock. This very promising program was arranged by Mrs. Minnette Sherman and other ladies of the Pacific avenue Parent-Teachers' Association.

FAREWELL TO MRS. VON WAHLDE

On Wednesday evening the family of Jacob J. Muhleman gathered at his home at 1211 Maple avenue, the occasion being to bid good-bye to one of the Muhleman daughters, Mrs. von Wahlde, who leaves on Thursday for her old home in Newport, Ky. She will enjoy an extended visit among relatives and friends there and in other parts of the East. As she travels by the scenic northern route, the trip itself will be very delightful.

BONDS AND BRIDGES

COMMITTEES MAKE REPORTS AT LARGE AND ENTHUSIASTIC MEETING OF C. OF C.

(By Walt. Le Noir Church.)

The largest and most enthusiastic meeting of the year in the Glendale Chamber of Commerce was held last night, as per call published in the Glendale Evening News and on 200 postal cards sent to the board of city trustees and other city officials, to all the churches, clubs, societies and associations in Glendale known to the secretary, and to all contributors to the Chamber of Commerce.

The special object of the meeting was to receive and consider the reports of the two committees appointed at the meeting held Thursday, September 27. First, to investigate the facts and the need of better fire protection; second, for further report on bridges.

Chairman Cowan called for the minutes of that meeting, and the secretary read the detailed report as published in the Glendale News, The same was accepted and approved.

Mr. Frederick Baker, chairman of the committee on fire protection, read and filed the following report, which was fully discussed, approved and adopted:

To the Glendale Chamber of Commerce. Gentlemen:

Your committee appointed to investigate and report on the question of the Chamber of Commerce indorsing the proposed bond issue for fire apparatus submits the following:

An election has been called by the city of Glendale to be held October 30, on the question of voting bonds in the sum of $17,000 for fire apparatus. A report on file in the city clerk's office specifies that this money is to be used as follows:

One pumping engine, 11,000.

2000 feet fire hose for new truck, $2000.

200 feet one-inch chemical hose, $120.

400 feet 1½-inch fire hose $340.

Pump installed on present apparatus, $1500.

One light service car, with 20-gallon chemical tank and other equipment, $1500.

Two Siamese connections, $60.

Miscellaneous nozzles, tips and tools, $180.

Total, $17,000.

Your committee recommends that the Chamber of Commerce indorse this bond issue and urge the people of Glendale to vote these bonds for the following reasons:

A pumping engine is urgently needed in order to give adequate protection to the business district and to the larger buildings in Glendale such as the group of high school buildings and other school buildings, sanitarium, First M. E. church and other buildings of similar type. This engine which it is proposed to buy will pump three streams of water at once at a rate of 750 to 1000 gallons a minute.

The fact of the great difference in elevation of over 700 feet between the southern portions of Glendale and the northern portions in the Verdugo canyon section makes it impossible to give sufficient direct pressure through the water main for fire protection purposes in all sections at once without incurring prohibitive expense. For if the pressure in the pipes is made sufficient for the higher parts of the city it would be so great as to be injurious to the mains and would cause them to burst in the lower portions of the city.

It is also advisable to procure a light service car carrying a chemical tank for the chief to use to reach all fires quickly and to make quick runs, to put out small fires before they gain any headway, thereby often preventing serious damage.

We also think it will be money well invested to install a junior pump capable of pumping about 250 gallons a minute, on the present combination hose and chemical wagon owned by the city. This can be used to make quick runs to the higher portions of the city where the heavier pumping engine would take a longer time to reach, and also as an auxiliary pumping engine and hose cart for more serious fires in the business section.

Your committee interviewed the board of fire underwriters in Los Angeles who fix the rates of insurance to be charged by all board companies insuring property in Glendale. While they could give us no formal assurance as to any reduction of rates if this apparatus was purchased without having a meeting of the board in San Francisco to pass on the question, yet we were told by them verbally, we would undoubtedly receive due and proper allowance for our increased fire fighting efficiency, when

RUSSIAN BATTLESHIP SUNK

TEUTONS IN COMPLETE CONTROL OF OESEL ISLAND AFTER TERRIFIC BATTLE IN GULF OF RIGA

(Special Service to Glendale Evening News)

PETROGRAD, October 18.—One battle ship, the Salva, was sunk in a naval engagement in which for a considerable time Russian war ships stood off the German strong fleet, at the entrance to the gulf of Riga, official statements announce. Complete occupation by the enemy of the island of Oesel is reported. Everything of military value was destroyed before the Russians were forced back. Nearly all the crew of the Salva was saved.

AIR MEN ARE ACTIVE

GERMAN PLANES AGAIN ATTACK NANCY, WHILE FRENCH AVIATORS BOMBARD GERMAN CITIES

(Special Service to Glendale Evening News)

PARIS, October 18.—Nancy was again the target of German airmen last night, with a number of civil casualties. French airmen dropped bombs on five German cities and brought down eleven Teuton planes on Wednesday alone.

TEXAS MEN GUILTY OF CONSPIRACY

THREE OFFICERS OF FARMERS AND LABORERS PROTECTIVE ASSOCIATION PLOT AGAINST U. S.

(Special Service to Glendale Evening News)

ABILENE, Texas, October 18.—Three of forty men charged with conspiracy against the federal government were found guilty by a jury this afternoon. The three found guilty were officers of the Farmers and Laborers' Protective Association. They were convicted of conspiracy to overthrow the government of the United States.

10,000 RUSSIAN PRISONERS

GERMAN WAR OFFICE ANNOUNCES DETAILS OF SUCCESSFUL NAVAL BATTLE IN GULF OF RIGA

(Special Service to Glendale Evening News)

BERLIN, October 18.—Ten thousand Russian prisoners were taken in the successful German operations on Oesel Island, official statements announce. Fifty guns and other material of value were siezed.

LIBERTY LOAN HITS STRIDE

TREASURY OFFICIALS RENEW HOPE THAT FIVE BILLION DOLLAR MARK MAY BE REACHED

(Special Service to Glendale Evening News)

WASHINGTON, October 18.—The second liberty loan campaign is at last hitting a stride. About half of the $3,000,000,000 is reported subscribed today. Treasury officials are renewing their hope that the $5,000,000,000 mark may be reached. The eight remaining working days must show a $435,000,000 average.

REMAINING DRAFTED MEN TO ENTRAIN

WASHINGTON, IDAHO, CALIFORNIA, NEVADA, MONTANA, OREGON, IDAHO AND UTAH MEN TO CAMP LEWIS

(Special Service to Glendale Evening News)

WASHINGTON, October 18.—All the remaining certified white men in the draft from the states of Washington, Idaho, California, Nevada, Montana, Oregon, Wyoming and Utah will be ordered to entrain for Camp Lewis during a five day period, beginning November 2.

PLAN TO AID UNCLE SAM

SOIL EXPERTS DISCUSS MEANS OF INCREASING SOIL FERTILITY AT FERTILIZERS' ASSOCIATION

(Special Service to Glendale Evening News)

INDIANAPOLIS, Ind., October 18.—Means of increasing soil fertility, to obtain maximum production of crops, to aid Uncle Sam in the war, were discussed at the meeting of the National Fertilizers' Association, which opened here today. Soil experts from several agricultural experiment stations will make addresses.

UNCLE SAM'S APPEAL FOR WHEAT

SACRAMENTO, October 18.—Uncle Sam's appeal to the farmers of California to plant 90,000 more acres of wheat this fall than last, can easily be met if as little as ten per cent of the million and a half acres planted to barley in California are changed over to wheat. The committee on Resources and Food Supply of the State Council of Defense and the University of California College of Agriculture are co-operating in this endeavor to meet war-time needs by increasing California's wheat production.

BIBLE MASS MEETING

DR. SELECMAN AND DR. WARD TO SPEAK AT BIG UNION SERVICE

Dr. Charles Selecman, pastor of the Los Angeles Trinity Methodist Episcopal church, will speak next Monday evening at the big Liberty Boys' Bible Mass meeting, to be held in the First M. E. church of Glendale. This will be the first opportunity the residents of Glendale have had to hear this noted speaker in a local church.

All the churches of Glendale are combining to aid in putting a testament in the hands of every soldier. This meeting has been arranged in the interests of the nation-wide "Scriptures for Soldiers" campaign. This movement has been endorsed by the Federal council of the churches of Christ in Amercia, which is the national church federation, and by the California state church federation, by the Y. M. C. A. secretaries, the army chaplains and the President of the United States.

Earle A. Rowell, the special representative of the American bible society, who has charge of the "Scriptures for Soldiers" campaign on the Pacific coast, is in Glendale making arrangements for this big mass meeting.

DR. CHARLES C. SELECMAN

"Everybody is invited to be present," said he. "Not only have we secured the services of Dr. Selecman, but we were also fortunate in being able to have Dr. Isaac Ward give his short but very interesting address on "The Bible and the Boys in Khaki." Dr. Ward is Billy Sunday's right-hand man and first assistant. He has charge of the shop meetings, the men's meetings, the details of the tabernacle work, and is the only man who ever preaches in the big tabernacle when the great evangelist, is away.

"This will be the first and last opportunity for the people of Glendale to hear this eloquent speaker. Either of the speakers mentioned would draw a big house. The two combined are expected to even tax the large capacity of the big Methodist church. In order to insure seats to those that are anxious to be present, we have had reserved seat tickets printed. These tickets are free for the asking. They may be secured from any pastor in town or at any drug store as long as they last. They will reserve the seats until 7:30 p. m. only, at which time the program begins. Everyone is advised to get a ticket and to be present on time."

Mr. Rowell announces that a similar program crowded the biggest auditorium in Pasadena and anticipates a similar result here.

BIRTHDAY PARTY

On Tuesday afternoon, October 9, little Miss Rhodora McKee was given an especially pretty birthday party by her mother at her home, 1418 Colorado street. Fifteen little tots were present, ranging from one year to six years of age, tiny Margaret Bennet and Baby Martelle McKee being the littlest little ones. A beautiful table was decorated in pink out on the lawn with a pink canopy above. In the center was a big white cake with pink candles surrounded by pink flowers with ferns. At each place was a little pink basket filled with candies, and also a delightful little individual cake in pink with a little white candle. The little folks were seated in little nursery chairs. The entertainment of the afternoon was kindergarten games played on the lawn and the especially fascinating task of fishing tiny toys from a wonderful fish pond. The party was a decided success and every little child went home happy over the glorious afternoon.

BUSINESS MEN'S LUNCHEON

About a hundred of the business and professional men of Glendale enjoyed a luncheon this noon at Masonic Temple, served by the ladies of the Christian church. An address on community building was delivered by L. M. Barker of Romana Acres, a prominent Los Angeles business man. The purpose of the luncheon was to get together and get acquainted.

WEATHER FORECAST—Fair tonight and Friday. Westerly winds.

MR. BONDAUX WRITES

OF GERMAN AIR ATTACK ON RED CROSS HOSPITAL IN FRANCE

After a delay of three weeks, Mrs. Maurice Bondaux, of 142 South Central, has again received word from her husband, who is at the front in France. The Landrecourt Red Cross hospital, where Mr. Bondaux has been in charge of the buying of supplies, has met with a tragic accident from German air attacks. Although the roof of this, as of all other Red Cross hospitals on the war front, is painted white with a great red cross in bold relief, which can be seen for hundreds of feet above, a bomb was dropped which demolished an entire wing, killing sixty persons, including German prisoners. In a former letter, Mr. Bondaux had stated that forty American boys who had volunteered previously to the arrival of American troops, were connected with this hospital. He had told, too, of the piteous suffering caused by the lack of supplies and equipment, even before this added catastrophe which must, of course, increase the need for help. Mr. Bondaux was most fortunate in being out with his ambulance at the time of the occurrence. He has been transferred to another hospital, the location of which cannot be learned since several letters seem to have been lost. A letter from Mr. Bondaux's father, M. Edmund Bondaux, head of the Red Cross at Verdun, reached Mrs. Bondaux a day in advance of the ones from her husband, also giving accounts of the almost incomprehensible suffering and needs which the Red Cross meets on every hand.

PARENT, TEACHER AND CHILD

The Glendale Federation, P.-T. A., in extending a reception to the teachers of all the Glendale schools, does so with the idea in mind of the object of the association. For the benefit of the parent, the teacher and the child. Therefore, in giving this invitation to parents we ask that fathers as well as mothers join in extending the hand of fellowship to the splendid instructors of their boys and girls, and in person acquaint themselves with the noble men and women who for a great part of the day have their children in charge. We desire also that the same opportunity be granted the teachers in enabling them to meet the fine parents of the pupils of the Glendale schools. With this end in view, Mrs. Arthur Brown as presiding officer, is to be congratulated in being enabled to announce her intellectual program with such speakers as Dr. Jessie A. Russell, State president California Congress of Mothers; Mrs. Charles D. Toll, Dr. A. L. Bryant, Prof. Moyse, and Mr. R. D. White. While Mrs. Opal Greenwalt further enhances the program with mental relaxation in offering Shirley Chase in a reading "The Statue of Liberty," Florence Rattray with a vocal solo "The Last Rose of Summer" and a whistling solo by Eva Green. Our own high school band will thrill all listeners, while during the evening piano selections will be given by Elizabeth Mottern, Reba Phillips and Helen Esterly. What with social intercourse and delicious fruit beverages served, it ought to be an evening long remembered. Remember the date, Friday evening, October 19th. The Federation will greet parents and friends most heartily and together with you do homage to our "beloved teachers."

RETURNS FROM NORTHWEST

Mr. C. H. Thompson, of the Thompson realty office, 317 Brand, has recently returned from a trip of several weeks in the Northwest. He spent some time in Oregon, where he visited relatives at Eugene. From there he went to Portland and on to Tacoma and Seattle, Wash. He stopped with relatives in Ellensburg, Wash., in the Yakima valley, which he reports as the richest spot he has found in all his travels, with wonderful crops this season. Mr. Thompson also visited Camp Lewis, at American Lake.

W. R. C. KENSINGTON

The Kensington club, auxiliary to the W. R. C., met on Wednesday afternoon at the home of Mrs. J. Ed. Phillips, 246 South Brand boulevard. Twenty-six guests were present, all members of the club with the exception of three, Mrs. J. R. Bright, Mrs. Gertrude Beveridge and Mrs. Davis, a guest of Mrs. Hammond. A pleasant afternoon was spent in sewing and fancy work. Flowers and flags were the decorations used. Mrs. Phillips served ice cream and cake. Those on the entertaining committee were: Mesdames Alma Dutton, Tina Hammond, Ada Atkinson and Mrs. Phillips.

GLENDALE, CALIFORNIA, THURSDAY, OCTOBER 18, 1917

COAL MINES DOING THEIR BIT

So much is being said about the shortage of bituminous coal, and the general public realizes so little the important gains in output made by the operators under trying conditions, last summer, over all previous records, that the statement just issued by the United States Geological Survey, Department of the Interior, on production in 1917 compared with 1916 is particularly timely. In commenting on this report, prepared by the statisticians of the Geological Survey, Director Geo. Otis Smith points out that the shortage is not due to the failure of the soft-coal mines to produce more coal than in the past, for the country on September 1 was about a month ahead of last year in output and is expected to finish the year with an increase of 10 per cent over 1916, the banner year, and of 25 per cent over 1915.

The tremendous increase in manufacturing and transportation activity this year has created a demand for soft coal in excess of any in the past, an increase in demand that is difficult to measure in terms of tons but that is certainly more than the 10 per cent by which production has increased. To meet this demand the mines have been producing soft coal at a rate never before equaled. In the second week of July, 1917, the average daily production was more than 1,900,000 tons, the highest point yet attained; in the middle of August the lowest rate for the summer, 1,638,000 tons, was recorded; and in the last week of September the daily rate was 1,823,000 tons. In the first eight months of 1917 the output of soft coal was 363,500,000 tons, or 37,000,000 tons more than in the first eight months of 1916. In the same period shipments of anthracite increased 16 per cent over those of 1916.

In the bulletin just issued by the Geological Survey, the figures of comparative shipments regularly collected and shown in part in the monthly and weekly reports, are converted into tons of total production, in order to satisfy the demand for information on the part of those not familiar with the coal industry. The diagram of average daily production will hereafter be reproduced in the weekly reports issued each Saturday, and the diagram showing total production to date will appear with the bulletins sent out the 15th of each month.

11,786 ENLISTED MEN

California has contributed a total of 11,786 enlisted men since April 2, according to report just made to Governor William D. Stephens, chairman of the State Council of Defense, by Adjutant General J. J. Borree, chairman of the committee on Public Security and Defense. Of this number there has been 4,391 enlistments in the Regular Army, while the California National Guard has been raised from 4466 to more than 10,000 men.

In reviewing Military and Public Service conditions which prevail in California, Adjutant General Borree in his report states that the Federal Government continues to guard all railroads, bridges, tunnels and such other public utilities as it considers of sufficient importance to warrant guarding.

There are now 52 licensed Home Guard companies in the State, all of which are subject to call for service by Governor Stephens. In addition, there are as many, or more, unlicensed Home Guard companies which are liable to service only in their home communities. The 52 licensed Home Guard companies have an average membership of about 150 men.

According to Adjutant General Borree, the formation of the Home Guard companies has had a salutary effect in keeping enemy alien sentiment in check throughout the State, and also has served in arousing much patriotism in many localities. In addition to the Home Guard companies, three new battalions of National Guard infantrymen have been formed. These three battalions consist of four companies each and can be used by the Governor in case of emergency.

EUROPEAN SUGAR SHORTAGE

Compared with America's average consumption of ninety pounds of sugar per person a year, England and France are almost without this commodity. The English person, who in pro-war times consumed his ninety-three and a third pounds a year, is now allowed one-half pound a week. In France the allotment is but eighteen pounds a year.

The British government has been careful to announce that it cannot guarantee that even the half-pound allowance can be obtained and a sugar card for a family is issued only for the number of persons sleeping in the house. In a public restaurant, if sugar is taken on cereals, the person must do without sweetening in his coffee. It is now customary for a lady, invited out to tea, to take her sugar with her. She is also expected to bring her own cake.

$7,000,000 TUNNEL FOR COLORADO RAILROAD

Construction of a $7,000,000 tunnel under James Peak—a dream of years of railroad construction engineers—probably will be realized in the near future, if the plans to secure investment of $5,000,000 of eastern capital, negotiations for which are now under way in New York, are consummated.

The tunnel will shorten by 200 miles the present route of the Denver and Salt Lake railroad—the "Moffat Road." Two millions of capital toward the seven millions required to construct the tunnel, rehabilitate the road and remove the receivership under which it is now being operated and place it on a paying basis, is assured by Colorado bondholders, provided the required additional five millions is secured.

Argentina, after hesitating long, has turned a friendly ear to a proposal from its Minister of Finance that an internal loan of 450,000,000 pesos be floated to meet the present emergencies. She will probably be surprised to find how easily it can be done, and how smoothly it will pave the way for another and a larger loan later on.

OLD NEWSPAPERS AND MAGAZINES

Saturday, October 13, we again collected newspapers and magazines. This 13th was undoubtedly unlucky, for I knew Friday evening that I would be short of machines, and Saturday I learned that two of those I had counted on were unable to help. As a result, we were abel to collect just about two-thirds of the paper that was probably on hand.

Since then there have been further offers of help, and I hope that when we collect again on Saturday, As a result, we were able to collect properly. Mrs. Roberts, of Roberts & Echols, has made us a most generous offer to use her machine whenever we collect and to help us at any time we let her know our need. One hesitates to take advantage of such generosity, but it is most comforting to know that one can in case of an emergency. Those who so generously collected for us last Saturday are:

Mrs. H. V. Brown.
Mrs. Ewins.
Mrs. Houston.
Mrs. Heald.
Mrs. Fairchild.
Mrs. Hester.

The heavy twine for tying the paper in bundles is quite an expense, and if people would save their laundry cord and the twine that comes around heavy packages it would be a real saving in money to the Red Cross. The papers of this collection have not been sold, but $16 has been donated to the fund and our papers and magazines will certainly bring more than that. So things might be worse.

Hereafter 312 South Brand will be open for ambulance pillow cutting; the making of scrap books for the soldiers under Miss Elizabeth Bullard, sub-chairman of that department; the collection and breaking up of pasteboard boxes, which bring $8 a ton, and the receiving of tinfoil, rubber and old gloves, etc., for Mrs. Duffield, who is chairman of such salvage. Mr. E. Parker has promised to lend us sufficient furniture.

Following is the list of helpers on last Saturday:

Columbus Avenue

Dewey McCourt, 3 hrs. 15 min.
George Holman, 3 hrs. 40 min.
Spencer Bellue, 5 hrs. 45 min.
Francis Betz, 4 hrs. 50 min.
Wilfred Jackson, 3 hrs. 15 min.
Everett Cowan, 2 hrs. 25 min.
Gordon Carline, 4 hrs. 50 min.
Polly Holman, 6 hrs. 55 min.
Harold Thompson, 3 hrs. 30 min
Robert Frazee, 3 hrs. 30 min.
Emily Bellue, 2 hrs. 50 min.
Eula Linkogel, 4 hrs. 10 min.

BRITISH AMBULANCE SOCIETY

The regular meeting of the Glendale branch of the British Ambulance Society was held as usual at the headquarters on Monday. There was a good attendance, many of the members being present for the entire day, as there is so much work on hand to be finished up. All members and helpers are urgently requested to attend these meetings, as the need for supplies is very great and more helpers are required. A short business meeting was held and the secretary's report of the soldiers' Christmas party was read. In the absence of the treasurer it was not possible to give the exact amount realized; but it is approximately $41 clear, $17 of which is to be sent to London for Christmas hampers. Besides this sum there were about 50 parcels and Christmas gifts for the soldiers which have been delivered to headquarters in Los Angeles and will go over on the next shipment. A letter was read from Corporal Bryson explaining his absence from the soldiers' Christmas party and regretting that unforeseen circumstances prevented his attendance. The usual tea at Ye Ginger Tavern was omitted last Monday, but will be resumed next week, Mrs. G. A. Whitaker of North Maryland being the hostess for the day. The general public is cordially invited.

FOOTHILL CLUB

The Foothill Club will meet tomorrow afternoon at the home of Mrs. Alfred Priest, 1422 North Central avenue. Red Cross work will occupy the ladies during the afternoon.

Have you ever heard a horse cry out from pain? It is a strangely pitiful and pathetic cry. Yet it has been claimed that capacity for suffering is largely a human characteristic.

In announcing that the soldiers of the new national army of the United States are using 2500 carloads of food daily, the American Railways Association War Board says: "The statement shows the tremendous drain the mobilization is effecting on the transportation facilities of the country." Are we to understand, from this that, if there had been no mobilization, the men who are now soldiers, would not have required an amount of food equal to that which they are consuming in the camps? Mobilization is reducing, not increasing, the number of domestic consumers. Why there should be an increased drain, or strain upon the transportation facilities of the country, by reason of the concentration of the citizen soldiery in camps, it is impossible to see. They have not just begun to eat.

It is not the fault of the music-loving people of Chicago that they wish for no German opera next season, any more than it is the fault of the public of Chicago that they desire, in the school books, no passages laudatory of the German Kaiser. If antipathies against things Germanic have been aroused in the popular thought of the United States, it is the fault of the German Government. These feelings did not exist while the rulers of Germany were, apparently at least, observing the amenities of civilization.

The fact that prices of potatoes have dropped greatly in America, since everybody who could do so planted this important vegetable, is an excellent reason for repeating the effort. But it is to be regretted that like results cannot be attained with coal, meat, milk, and canned goods.

Personals

Mrs. G. Olson, 1440 West Broadway, who has been quite ill for the last week, is improving and is now up and about.

Mr. H. A. Wilson, who for the last two months has been residing in Riverside, Cal., is in Glendale today calling on his friends. Mr. Wilson still claims Glendale as his home.

Mrs. E. B. Moore, 207 Blanche avenue, with her baby girl, spent the day last Friday as the guest of Mrs. Florence Crane, formerly a teacher in Tropico, at her home in Los Angeles.

Mr. and Mrs. L. A. Hayman, 409 East Palmer avenue, are the proud parents of a 7½-pound baby girl, born at the Thornycroft Hospital early in the morning of Thursday, October 11.

Mr. and Mrs. Shorey and family of Boston, who have just recently come to Glendale to make their home, have rented the house at 339 Louise, furnished. They moved into their new home this morning.

Mr. Ed McClelland of San Bernardino is a house guest of Dr. and Mrs. H. C. Smith at their home, 933 Dorothy drive. Mrs. McClelland is at Thornycroft Hospital with her infant daughter, born on Wednesday, October 10.

Lawrence A. Lawson, son of Mr. and Mrs. J. W. Lawson, of 1303 Chestnut street, has been assigned to the aviation service signal corps at Omaha, Neb., as lieutenant. He left for San Francisco on Wednesday evening to take his oath of office.

Mrs. Salo Desky, of 139 South Kenwood street, who was suddenly stricken ill on Tuesday while preparing to move to Los Angeles, is recovering, and it is hoped that she may be out again in a few days. Mrs. Desky was taken to the Thornycroft Hospital.

The ladies of the West Glendale M. E. church met at the chapel on Tuesday afternoon at 2:30 for a social afternoon. Every one was asked to bring their knitting. The time was spent with music and games. Tea was served cafeteria style to about 45 guests. All pronounced it a very pleasant afternoon.

Mrs. Earl E. Hitchcock, Mrs. Frank Webber and Mrs. Oliver Spradling, all of Glendale, attended a luncheon Tuesday afternoon at the home of Mrs. George Chenoweth, 604 West Forty-second street, Los Angeles. Mrs. Chenoweth is a bride of but a month. The luncheon was a large one, delightfully served and with beautiful decorations.

Miss Kathleen Dodge, daughter of Mr. and Mrs. L. G. Dodge, of 101 South Central avenue, who has been very ill for a number of months past, is much improved. Miss Dodge was able to be driven out to call on some friends for the first time on Tuesday, her mother taking her in their machine to visit Miss Dorothy Hobbs and Miss Esther Shremp.

Mr. Peter L. Ferry, of 536 Acacia avenue, who has been in Camp Kearney for the last six weeks superintending some of the concrete construction, has been visiting at his home for a few days. Mr. Ferry left for San Diego again on Wednesday morning. He thinks he will be through his work at Linda Vista in two or three weeks more.

The Carnation Thimble Club met Wednesday afternoon at the home of Mrs. Charles S. McNary, 1451 Sycamore avenue. Eleven members were present, with no outside guests. Two hours were spent in needlework, and Mrs. McNary served afternoon tea from the dining table. A very pleasant afternoon was spent by all. The hostess was assisted by her two daughters.

The friends of Mr. J. E. Vandiver, of 1224 West Ninth street, who has for the last week been in the Schultz Sanitarium in Los Angeles, will be glad to know of his improvement. Mr. Vandiver has for the last five years been postman in Tropico and has many friends who wish him a speedy recovery. He has been quite ill for the last three months, but only resigned his position about a month ago. His recovery will doubtless be slow, but the present outlook is most hopeful.

PYTHIAN SISTERS SEW FOR BAZAR

The Pythian Sisters' Thimble Club met on Wednesday afternoon at the home of Mrs. George Merritt, corner of Gardena and Cerritos. About 15 members and guests were present. The afternoon was spent in making aprons for the bazar which will be held the 16th of next month. It was decided to serve ice cream and cake on that occasion and to have dancing and cards by way of entertainment. Mrs. Merritt served a delicious lunch at 5 o'clock.

BONDS AND BRIDGES

(Continued from Page 1)

fixing fire insurance rates in the future for Glendale.

This assurance together with the additional security we would all obtain for our lives and property, and for the lives of our children in the opinion of your committee fully justify this expenditure.

Respectfully,
Frederick Baker,
W. T. Sprowls,
Geo. H. Bentley.

Chairman Cowan stated in substance that there was more or less public misunderstanding of the facts pertaining to the fire engine now owned by the city; and as he favored voting the proposed fire bonds, he thought it would be well for the city trustees to give the facts fully and without reservation. From statements made by City Attorney Evans, Mayor Thompson, City Manager Watson and City Trutsee Woodberry it is clearly understood that:

1. The legal controversy pertaining to the old engine was decided by the court in favor of the city of Glendale, and nothing more is to be paid on account of said old fire engine.

2. If the proposed fire protection bonds are voted by the citizens of Glendale, the money received therefrom will be expended for the items named in the foregoing report, signed by Frederick Baker, W. T. Sprowls and George H. Bentley—and for no other purpose—and that the city trustees are willing to officially go on record to that effect.

Too many spoke at various angles for mention here, but of one thing, there is no doubt:

1. All who expressed their opinion at that meeting last night, are strongly in favor of voting the fire bonds, as a necessity of the situation, for the protection of our city, our homes and our families.

2. Without a dissenting voice they are willing for the money from those bonds to be so expended by our present Board of City Trustees, in whom they expressed absolute confidence, not only as to ability, but also as to reliability and efficient action.

It was suggested that the sure way to carry that election is to get out the women voters.

At the wish of those present, the chair appointed a committee of five men to constitute a fire protection bonds election campaign committee, with authority to select five women to co-operate with them, and so fill up "the committee of ten." The chair appointed Jesse Smith, W. T. Sprowls, W. B. Kirk, Dr. H. R. Harrower and George H. Bentley.

That assures a lightning election campaign, which will make the actual facts of the situation well known to Glendalians.

Dr. Harrower suggested that it be requested this election be announced at every public meeting. He stated that he would announce it at the coming Red Cross concert.

The Chamber of Commerce secretary said he would see that the election is announced at the Saturday night community singing in the high school.

Mayor Thompson requested that the executive board of the Chamber of Commerce meet with the Board of City Trustees at the City Hall this (Thursday) evening at 7:15.

It was suggested also that the campaign committee request the ministers of Glendale to announce the election from their pulpits, as it is the duty of every citizen to vote either for or against those bonds.

While writing these notes one of the P.-T. A. ladies said she would have the election announced tomorrow night at the reception given to the teachers at the high school, and would call attention to this account in today's Glendale News.

Mr. Mattison B. Jones, chairman of the bridge committee, told the secretary of the Chamber of Commerce it would be impossible to attend, but he gave the secretary a full report of progress, and later telephoned an addition to that report. Mr. Jones' report follows:

Glendale Chamber of Commerce,
Glendale, Cal.:

Gentlemen—I shall not be able to attend the meeting of the Chamber tonight, and, therefore, take this method of advising you briefly as to the work of your bridge committee.

There is nothing special to report concerning the Wash bridge except that I am informed that the plans for the erection of the bridge are working out generally satisfactorily.

As to the Ivanhoe bridge, I have to state that I have tried to get in touch with Mr. Mallard, chairman of the finance committee of the Los Angeles City Council, but have failed, my purpose being to arrange for a meeting of the bridge committee of the Chamber with his committee with the intent to lay before his committee the fact that last year a number of us interested in the Ivanhoe bridge waited upon the Council and different members of the Council of Los Angeles at different times to press the necessity and wisdom of the proposition of a $15,000 bond issue for that purpose being placed on the ballot at the special bond election that was to be held, as I recall, October 26 last; that the last time we met with the councilmen. The councilmen were sitting as a committee of the whole, and at that time Attorney Howard Robertson, of the city attorney's staff, whose duty it was at that time to wait upon and advise the Council in various matters, and different members of the Council stated that it was considered by them very much against the credit of Los Angeles in the minds of Eastern bond buyers to have so small a bond issue upon the ballot, and that in lieu of that course it would be far better to have the budget for the year 1917 include an item of $15,000 for the Ivanhoe bridge.

We agreed to let the matter take that course, inasmuch as at that time all the councilmen but one openly and publicly stated in the meeting of the committee of the whole that they would vote to place the $15,000 item in the 1917 budget, the other councilman stating that, while he favored the matter at that time, yet he preferred not to pledge himself to any matter of business so far in the future.

It has been my thought to lay these matters before the new Council of the city of Los Angeles, believing that when they are fully advised, as I feel they are not as yet, that the old Council members were so strongly convinced of the wisdom of such a course, and in view of the promises made to us a year ago, they would be willing to increase the appropriation from $10,000 to $15,000. I shall get the two committees together at the earliest time possible.

I have written to Supervisor Dodge concerning the matters hereinbefore stated, and have asked him to take the matter up with Councilman Mallard and acquaint him with the fact that he has heard of the promises made by the old Council and to otherwise use his endeavors to the end that the appropriation may be increased to 15,000.

—

Later—Since writing the above I have learned that the city of Los Angeles has made demand on the County Supervisors for the $5000 appropriated by them for the Ivanhoe bridge to be paid into the city treasury. This being true, it would seem that the city intends to go ahead with the work. It is not the policy of the city to begin any work without first locating the money. This is very encouraging to me.

Respectfully yours,
MATTISON B. JONES,
Chairman Bridge Committee.

City Manager Watson and Mr. Veselick said they would corroborate that report, having received letters from Supervisor Dodge.

Mr. Veselick added that he would file the following petition, signed by representatives of Glendale, Tropico and Burbank. He further stated that the rights of way mentioned in the petition had been assured, and he believed that the city would build the bridge in a few months.

The petition follows:

September 28, 1917.

Board of Supervisors, Los Angeles County:

Gentlemen—The undersigned are vitally interested in the prompt construction of what is known as the Ivanhoe bridge, across the Los Angeles river near Griffith park. The cost of this bridge, at the present price of materials, amounts to $20,000. Your honorable board has heretofore set aside a sum of $5000 as a contribution for such work. The city of Los Angeles has set aside $7500 for the work. The owners of property in the vicinity have undertaken to construct paved highways leading to the bridge in order to make the same available, and which improvements will cost these property owners not less than $60,000. This sum is in addition to a sum of $75,000 that has already been spent in the paving of Brand boulevard and other streets that are to connect with the road leading across the river at this point. The cities of Tropico and Glendale have undertaken to procure certain rights of way that will cost $2000 or more.

Under the circumstances, and in consideration of the very great necessity for this bridge, we feel that the county would be fully justified in contributing an additional sum of $2500 from your appropriation for bridges, or a total of $7500, toward the immediate completion of this much needed improvement.

Respectfully submitted.

The petition is signed by L. C. Brand, Glendale; E. G. Judah, Los Angeles, president Community Manufacturing Company; E. M. Spates, M. D., 931 Black building; city of Tropico, by Arthur J. Van Wie, city clerk; Glendale Chamber of Commerce, by Walt Le Noir Church, secretary; W. H. Blanchard, chairman of Board of Trustees, city of Burbank; J. S. Thompson, chairman of Board of Trustees, city of Glendale, and Charles H. Toll, North Glendale.

The outlook appears to be good, both for the Ivanhoe bridge and for the fire protection bond election.

FRUIT FOR SOLDIERS

The card party held on Wednesday afternoon at the home of Mrs. C. S. Packer, 1462 Riverdale drive, the proceeds of which are to be devoted to the purchase of fresh fruit for the boys of Company 9, C. A. C., at Dead Man's Island, was a great success. At least $21 has been cleared, and the afternoon was a pronounced success socially as well. Five hundred was the game played, and ten tables were filled, besides a large number of guests who came in to tea. Tea was served with most appetizing home-made cookies. The first prize was won by Mrs. Roscoe Puffer, and was a really lovely water color landscape, painted by Mrs. Hearnshaw. Mrs. John Roman made low score and was consoled with a wild flower bouquet. Another card party will be given for the same cause in two weeks at the home of Mrs. C. O. Pulliam.

Don't Take Such Risks
If you hit somebody with your car (whether your fault or his) you are liable for a damage suit that may cost you thousands. If you have any property to speak of, the sympathy of the jury is likely to be against you. An unscrupulous attorney can manufacture the evidence against you.
Don't take such risks. A "Public Liability" policy, which I furnish at reasonable prices, will fully protect you.

PRESBYTERIAN YOUNG PEOPLE, ATTENTION

The complimentary supper and young people's program announced in yesterday's News to be held at the First Baptist church in Los Angeles, will, instead, be at the First Presbyterian church, Twentieth and Figueroa streets.

This affair is given by the Synodical Society of the Presbyterian church, now in session in Los Angeles. All the young people of the Glendale Presbyterian church are invited. The time is Friday afternoon at 5 o'clock.

Table talks by prominent leaders will be the special feature of the evening. The invitation is to members of the Christian Endeavor Society of the Sunday school, of the Young Women's Missionary Society and young people of the church generally.

The program will be over in time for all who wish to to get to the Sunday Tabernacle in time for the evening service. Make your plans to be there.

GLENDALE W. C. T. U. WOMEN

Wednesday twelve of the busy women of the W. C. T. U. spent the day at the Temple headquarters, filling comfort bags. While there they witnessed one of the daily occurrences. Eighteen of the soldier boys on their way to Aracadia came in, asking for comfort bags. They expressed their appreciation, saying that the contents of these bags just fitted their needs, many of them having no mother or sister. The need is so urgent that the W. C. T. U. of Southern California has been called on to make 5000 khaki bags for the Sammies with the greatest haste.

The Glendale W. C. T. U. will meet Friday afternoon at 2:30 o'clock, October 19, at the home of Mrs. John Paul, 533 South Orange street. Please bring scissors and any clean soft rags of any color to cut for Red Cross ambulance pillows. Mrs. J. F. Corbin, 730 South Adams, a missionary among the Mexicans, whose husband is general superintendent of Mexican missionary work of the west coast of Mexico and of California and Arizona, will speak on "What Effect the Present Temperance Wave Has on Mexican Missionary Work." All W. C. T. U. workers and friends are welcome.

CONFERS THIRD DEGREE

Last Tuesday evening the past masters of Unity lodge conferred the third degree at the Masonic Temple on E. L. Wilson. About 200 members and visiting brethren witnessed the work, after which they repaired to the banquet hall.

Several addresses were given during the banquet, one of which was a farewell address by Dr. Hogue to the present worshipful master, William F. Nash, Jr., who leaves next month to join the naval reserve. In the course of Dr. Hogue's address he spoke of the very faithful and efficient work of Mr. Nash during the last year as master of the lodge, and presented him with a handsome radium wrist watch, so needful to the boys in blue, as a gift from the present officers and past masters.

Much credit is due Mr. Fred Deal and his corps of assistants for the manner in which the banquet was served. The decorations were carried out in Halloween.

"Pa, mother's lookin' for yer."

"What's she want of me now?"

"She won't want nothing of yer, but she says she's goin' to give yer something."

To the Customers and Patrons of the "CASA VERDUGO STORE"
We, the undersigned, have bought the interest of Mr. O. C. Logan, in the Grocery, Hardware and Drug Department of the above store.
Being comparative strangers to you, we want to say: our **desire** and **aim** is to please our customers in every possible way, to deal honorable, to be courteous, answer phones promptly, and (by the way) please be patient and forebearing with us until we learn your names, and the sound of your voices. We will do **our best** to give you good service, good goods, and our best wishes that a mutual friendship may grow and become such a strong cord, that the winds of adversity cannot break nor sever. Give us, please, a chance to become **true friends.** Yours for business,
FREEMAN and SON
Casa Verdugo, Cal., Oct. 18, 1917.

SCHOOL LUNCHES

Don't let the school lunch be merely something which will fill the lunch box in the morning and be only a sop to stay the kiddies' appetites from noon until night. Make it a real contribution to the food which the children require to meet the needs of their growing bodies and active brains—to satisfy their appetites and keep them in health.

These are the suggestions of home economics specialists of the United States Department of Agriculture, now that millions of the future citizens of the country are again eating their midday meals from box, basket, bag or confectionery shop instead of from the family table under watchful parental eyes.

The preparation of luncheons which will fill the needs of the child's body does not mean the use of more expensive foods or the expenditure of greater effort, the specialists point out. In many cases both expense and work will be lessened. What is needed for the preparation of more satisfactory lunches is merely that parents and "big sisters," or whoever fills the lunch box, shall inform themselves of certain facts in regard to the choice and combination of foods. The need in many cases is for neither more nor less food, but for the representation of needed food groups. The necessary facts are set out plainly in Farmers' Bulletin 712, "School Lunches," which may be had free so long as the supply lasts by application to the United States Department of Agriculture, Washington, D. C.

The following suggestions are among those made in the bulletin for well balanced lunches to be carried to school:

Basket Lunches

1. Sandwiches with sliced tender meat for filling, baked apple, cookies, or a few lumps of sugar.

2. Slices of meat loaf or bean loaf; bread and butter sandwiches, stewed fruit, small frosted cake.

3. Crisp rolls, hollowed out and filled with chopped meat or fish, moistened and seasoned, or mixed with salad dressing, orange, apple, a mixture of sliced fruits or berries, cake.

4. Lettuce or celery sandwiches, cup custard, jelly sandwiches.

5. Cottage cheese and chopped green pepper sandwiches, or a pot of cream cheese with bread and butter sandwiches, peanut sandwiches, fruit, cake.

6. Hard boiled eggs, crisp baking powder, biscuits, celery or radishes, brown sugar or maple sugar sandwiches.

7. Bottle of milk, thin corn bread and butter, dates, apple.

8. Raisin or nut bread with butter, cheese, orange, maple sugar.

9. Baked bean and lettuce sandwiches, apple sauce, sweet chocolate.

HOOVER TO ADDRESS NATIONAL DAIRY SHOW

COLUMBUS, O., Oct. 18.—With 2000 prize cattle, horses and a vast amount of farm machinery on exhibition, the National Dairy Show, the largest agricultural exposition to be held in the United States this year, opened at the Ohio state fair grounds here this afternoon.

The show carries the message of food production and conservation. Dairymen and farmers will be told that the best animals are necessary to increase the production of dairy products and the way to use the products most economically will be pointed out to consumers.

Herbert Hoover will address a mass meeting of the American dairy industry on October 22. Following the meeting, the American Jersey Cattle Club, the American Dairy Science Association and the International Milk Dealers' Association will open conventions, and Jersey cattle will be judged.

A national marketing conference will be held October 23 by the agricultural department's bureau of markets. Other conventions which are to be held during the show are the American Guernsey Cattle Club, the American Dairy Farmers' Association and the Ohio Association of Creamery Owners and Managers on October 23, and the Holstein-Freisian Association of America on October 24.

HOLDING OF LOADED CARS

Shippers who hold loaded cars at yards while deciding on their final destination contribute importantly to the shortage in transportation, according to the Bureau of Markets of the United States Department of Agriculture. Specialists who studied conditions at the Potomac Yards, Virginia, for 30 days last summer, found that 236 cars of perishable commodities were held on the average of 44 hours each by shippers or consignees before issuing orders to move the cars. No car held for less than 24 hours was counted. A car of cabbage was held 78 hours; a car of watermelons, 84 hours; a car of cucumbers, 104 hours; a car of potatoes, 128 hours; and a car of tomatoes, 213 hours.

These facts made clear that shippers through these yards are abusing their diversion privilege and are wasting much car space by not keeping their cars moving. The remedy is to file diversion orders in advance of arrival. As Potomac Yards is only one of hundreds of important diversion points, the waste, the specialists point out, is significant and without compensating advantage to owners.

SHORT CATECHISM ON LIBERTY BONDS

Q.—How much do bonds of the second Liberty loan cost?

A.—From $50 to $100,000, whatever their face value calls for. The law states that these bonds must be sold at not less than "par"; that is, their face value—100 cents on the dollar.

Q.—How can I buy the bonds of the second Liberty loan?

A.—By filling out an application blank and handing it to any bank or trust company, bond dealer or broker, or to one of the federal reserve banks or to the Treasury Department at Washington.

Q.—When can this application for bonds be made?

A.—At any time from the first day of October to the close of business on the 27th day of October, 1917.

Q.—In what form must applications to buy a liberty bond be made?

A.—All applications must be made in the form prescribed by the Secretary of the Treasury, obtainable at any bank or from a Liberty loan committee.

Q.—Must the full price of bonds be paid on application?

A.—No; only 2 per cent of the amount you want to buy is required when application is made.

Q.—When must the remainder be paid?

A.—In installments as follows: 18 per cent on November 15, 1917; 40 per cent on December 15, 1917, and 40 per cent on January 15, 1918.

Q.—Can I buy a bond on the installment plan by paying for it weekly or monthly?

A.—The Treasury Department will not accept payments in this manner, but many banks and a great many employers will sell you a bond and allow you to pay for it in partial payments. If you desire to pay for your bonds in this way, consult your employer or any banker.

Q.—When will the subscribers know how many bonds they will receive on their subscriptions?

A.—The Secretary of the Treasury will announce this about the 6th of November, 1917. This is known as making the "allotment."

Q.—Must all subscribers to Liberty bonds wait until the allotment is made to know whether or not they will receive their bonds?

A.—No. A subscriber for bonds up to $1000 is certain to receive his bond.

Q.—If I desire to pay for the bonds at the time I make my application, may I do so?

A.—Yes, you can pay in full for any bonds you buy, up to and including $1000, but subscribers for more than this amount must wait until the allotment is made.

SURGICAL DRESSINGS SHORT COURSE

(From the Official Red Cross Surgical Dressing War Manual)

GAUZE COMPRESS (4 by 4 inch)—Cut gauze 18 inches on selvage by 18 inches. Place selvage to right. Fold cut edges to center, making nine inches by 18 inches. Fold ends to center, making 9 inches by 9 inches. Fold on same center, making 9 inches by 4½ inches. Fold along other center, making a square.

To Wrap—Make one stack of 30, with all folded edges on same side. Cover envelope fashion with unbleached muslin, or clean, old, undamaged cotton or linon, 16 by 16 inches, and tie with string or selvage. Stamp on face of package, "American Red Cross, ——— Chapter, 20 gauze compresses four by four inches."

A CHEERFUL FACE

It is said there is nothing which diffuses itself more quickly in a family than the coolness, indifference and discontent which manifest themselves in the countenance of one of its members. This thought is not absolutely true. There are some things which communicate themselves with as much rapidity and more force. They are a bright smile, a frank and open manner, a cheerful face, a happy heart. There is enough misery in the world without adding to it a single frown. A cheerful face is always welcome.

GERMANS FEAR AMERICAN AIR POWER

WITH THE BRITISH ARMIES IN THE FIELD, Oct. 7 (by mail).—Realizing that Germany is facing a Waterloo in the air, the Prussian higher command has given orders that battleplanes must be conserved in accordance with the strictest economy lest the ever-increasing armada of allied air craft sweep them from the skies.

German airmen seldom venture over the British lines while a strong east wind is blowing. To do so would mean that engine trouble or any slight derangement of a plane would force a landing on this side of "No Man's Land." To the contrary, they try to lure British airmen over on their side of the trenches when a strong west wind is blowing.

For the last few weeks the British have forced the fighting. The boches have consistently run from the English unless the advantages were all in their favor. The British, flying miles behind the German lines, frequently are hard put to it to find a fight. Many a patrol, out on offensive duty, in default of battles in the air, have attacked infantry on the ground or machine gunned the enemy's troops in reserve.

From this it must not be presumed that the Germans are cowards. British airmen know what courage is, and they are first to give their enemy his due. When he fights he fights like a demon. And he fights cleverly. The British never have a walkover. Every machine they bring down means something. It is not like taking candy from a child.

It seems to indicate this: Germany is putting out aeroplanes as fast as she can. Sometimes quality is sacrificed for quantity, and then their own airmen have to pay with their own lives. Unable to increase the output of airplanes and realizing the importance of them, the higher command has ordered severe economy.

The German fights warily, by order, for with America in the fight, to add her immense machinery to that of the allies and turn out countless thousands of planes, he sees his Waterloo in the air coming and hopes to stave it off as long as possible.

NOTICE OF FORECLOSURE SALE

Sheriff's Sale No. B-53400.

Order of Sale and Decree of Foreclosure and Sale.

Los Angeles Trust and Savings Bank, a Corporation, plaintiff,
vs.
Charles De Vidal-Hundt, A. P. Buisseret as administrator of the estate of Dorothy De Vidal Hunt, deceased; Agnes Buisseret, John Doe and Jane Doe, defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the County of Los Angeles, of the State of California, on the 2d day of October, A. D. 1917, in the above entitled action, wherein Los Angeles Trust and Savings Bank, a corporation, the above named plaintiff, obtained a judgment and decree of foreclosure and sale against Charles De Vidal-Hundt et al., defendants, on the 26th day of September, A. D. 1917, for the sum of Eight hundred ninety-one and 91-100 ($891.91) Dollars gold coin of the United States, which said decree was, on the 29th day of September, A. D. 1917, recorded in Judgment Book 418 of said court at Page 174, I am commanded to sell all that certain lot, piece or parcel of land situate, lying and being in the County of Los Angeles, State of California, and bounded and described as follows:

Lot ten (10) of Saginaw Heights, as per map recorded in book 13, page 89 of maps, records of said county, excepting therefrom the easterly ten (10) feet reserved for street purposes. Together with the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining.

Public notice is hereby given that, on Monday, the 5th day of November, A. D. 1917, at 12 o'clock m. of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment, with interests and costs, etc., to the highest and best bidder, for cash gold coin of the United States.

Dated this 11th day of October, 1917. JOHN C. CLINE,
Sheriff of Los Angeles County.
By W. T. OSTERHOLT,
Deputy Sheriff.
WILLIAM L. KUEHN,
Plaintiff's Attorney. 35t4Fri

NOTICE TO CREDITORS

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the Matter of the Estate of W. D. Simpson, Deceased.

No. 36189.

Notice is hereby given by the undersigned, Winifred S. Boardman and George P. Simpson, administrators with the will annexed, of the estate of W. D. Simpson, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within ten months after the first publication of this notice, to the said administrators at the office of Charles L. Chandler, attorney, 520 Investment bldg., city of Los Angeles, county of Los Angeles, state of California, which said office the undersigned selects as a place of business in all matters connected with said estate, or to file them with the necessary vouchers within ten months after the first publication of this notice in the office of the Clerk of the Superior Court of the state of California in and for the county of Los Angeles.

Dated October 12, 1917.
WINIFRED S. BOARDMAN,
GEORGE P. SIMPSON,
Administrators with the Will Annexed of W. D. Simpson, Deceased.
CHARLES L. CHANDLER, 520 Investment Bldg., Los Angeles, Cal., Attorney for Administrators.

It is the mountain to the sea
That makes a messenger of me.
And, lest I loiter on the way
And lose what I am sent to say,
He sets his reverie to song
And bids me sing it all day long.
—John Bannister Tabb.

"There is something queer about that man."

"Why?"

"He was hurt in an automobile accident and he actually admitted that it was his own fault."—Detroit Free Press.

SHAVER'S

FOR FRIDAY AND SATURDAY

NEED MORE POULTRY

The Secretary of Agriculture points out the importance of increasing poultry on the farms in the following letter transmitted to the American Poultry Association through Mr. Harry M. Lamon:

I hope that the coming meeting of the American Poultry Association, which you will attend as a representative of the department, will be highly successful and productive of good results. I need not point out that an adequate supply of foodstuffs is essential to the effective prosecution of the struggle in which we are engaged. We must not only supply our own needs, but we must endeavor to meet in part the needs of the nations with which we are co-operating. The poultry industry can render very great service to the nation in this emergency. The production of poultry is one of the best means of bringing about a quick increase in the meat supply of the country. In many sections, particularly in the South, the number of fowls on individual farms can and should be very largely increased. If the improved methods which have been worked out by the experts of the state agricultural colleges, the experimental stations and the Department of Agriculture, were generally adopted, many of the problems confronting poultrymen would be solved or minimized. The department is co-operating with the industry in many directions and stands ready, of course, to render any assistance it can.

LIFE OF THE WASP

There isn't a male wasp in existence when winter ends. Late the preceding fall the wasps mate. The coming cold weather kills every worker and male, while Mrs. Wasp hies herself to a convenient place and hibernates, ready to come forth in the spring and lay eggs to replenish the race.

AUTUMN IN KENTUCKY

"Magic colors are in the woods. Some of the oaks are a rich glossy green, others red and scarlet. The leaves of the gum are a light clear red mingled with tints of yellow," writes Ingram Crockett, describing the Kentucky landscape in autumn.

"I hear the hoot of a horned owl in the distance, a lonely call that the negroes interpret aptly—'Chick-er-a-goose, goose, goose!'

"The hedges are full of sparrows, that go in flocks now—vesper, fox, black-faced, white-headed—and with them, leading the way, a cardinal.

"The corn is in shock—row after row of wigwams where the warriors of summer rest—their shining harness put off forever.

"The ragweeds are a cold purple, thick on the stubble fields, and of such even height that the hills covered with them appear, at a little distance, as if fallowed and harrowed. In the hollows and around the edges of the field glow charming bits of color. The maroon of the young sweetgums—the scarlet of young sassafras. Color that handled by man might look harsh and garish, seen through this hazy atmosphere is wonderfully soft, yet brilliant.

"The acorns begin to fall, pattering in quick showers when the wind comes by. There are many red and yellow leaves, and gossamers twinkle with a new light. The eddying leaves settle into snug hollows, or heap themselves in brier thickets.

"Flocks of blackbirds are flying west beneath a cloudy sky. This evening a remarkable display of sunset colors. Above were dull gray clouds. Then suddenly two maples, not over fifty feet away, were lighted in their tops with a clear, bright orange, as if the upper boughs of the trees were in fall dress. Some tall oaks were also brightened in the same manner, but not so beautifully as the maples. Far off a clump of trees, through a vista of red maples, was aflame with this unusual light. The sun could not be seen, but as the light in the trees faded, overhead shone pink and violet bars bending to the horizon."

A PASTE FOR MENDING DISHES

Here are directions for making and applying a paste or cement which is said to be excellent for mending china. First, make a thick solution of gum arabic. Then stir plaster of Paris into that until it is of a creamy consistency. Take a small brush and paint the broken edges of the piece of china with this very thoroughly, then stick the pieces together with care and set away to harden. It may be wise sometimes to tie the pieces together, to hold them firmly joined. This cement is very white, which makes it less objectionable than some mending substances. It is said that, three days after mending an article with this, it can not be broken again in the same place. If too much paste is used and it cakes over the surface of the dish, when dry, try removing it with sandpaper.

A WOMAN'S INVENTION

Recently put upon the market is a drapery and picture hook, invented by a Boston woman. She got the idea from a temporary use of a bent hairpin in adjusting a bit of drapery. And then she realized that there were large commercial possibilities before her. She perfected and patented her invention, and is now doing remarkably well with it, besides conducting another successful business. Perhaps one may be permitted to remodel four lines from Pope to fit the case:

O woman! in our hours of ease
Uncertain, coy and hard to please;
Yet note her well and you'll discern
She often has a business turn.
